

Global Telecom & Technology Enters Strategic Agreement With Fiber Provider INDATELgroup To Bring National and International Connectivity To Underserved U.S. Rural Markets

MCLEAN, Va., April 3, 2008 – Global Telecom & Technology, Inc. (“GTT”), (OTCBB: GTLT), a global Multi-Network Operator (MNO), announced today that it has entered a strategic agreement with INDATELgroup to provide bandwidth solutions to multiple underserved rural markets across America.

The agreement enables GTT to extend its global network reach into the heartland of America, providing national and international connectivity to numerous strategic rural markets. The partnership also allows INDATELgroup to purchase GTT’s connectivity solutions in locations outside of their current 23-state fiber footprint. With over 100,000 Points of Presence (POPs) in its multi-network footprint, GTT will offer INDATELgroup its full breadth of WAN solutions and services.

“This agreement reinforces the value proposition of our Multi-Network Operator strategy,” said Richard D. Calder, Jr., GTT’s president and CEO. “GTT’s mission is to provide multi-carrier or multi-service bandwidth solutions to customers around the globe, in ways that no single facilities-based carrier can. By combining the power of GTT’s global network reach with INDATELgroup’s strategic rural fiber footprint, we can offer a breadth of viable network alternatives to our customers.”

INDATELgroup president Max Huffman said “We couldn’t be more pleased with our partnership with GTT. This agreement will enable INDATELgroup-member companies to offer their customers network solutions beyond traditional state boundaries - into markets across the U.S., and around the world.”

About GTT

As a Multi-Network Operator, GTT combines multiple networks and technologies to design unique network solutions for its customers. By integrating components of multiple carrier networks, GTT can create the “best network” in a way that no single carrier can. GTT has taken the Multi-Network Operator strategy to a new level, through a combination of powerful network design

tools; a global service footprint; a deep and broad set of strategic supplier relationships; and above all, an expert team committed to delivering outstanding end-to-end customer service.

Headquartered just outside Washington, D.C. in McLean, Virginia and with offices in London, Paris, and Dusseldorf, GTT has over 150 carrier partnerships and access to over 100,000 network Points of Presence around the world. GTT provides a global service footprint that supports more than 300 businesses in more than 70 countries, worldwide. For more information visit the GTT web site: www.gt-t.net

About INDATELgroup

INDATELgroup, an alliance of 20 independently-owned rural fiber providers delivering services in 23 states across America, provides high quality, cost-effective broadband connectivity in their respective markets, handing off services to both rural and metropolitan areas via fiber optic SONET routes. Services range from DS1 connectivity, to OC-48 high end capacity.
